RECOGNIZING THE CAREER OF
DONALD E. CORNFORTH, M.D.

HON. KEVIN MCCARTHY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 25, 2018

Mr. MCCARTHY. Mr. Speaker, I rise today to recognize the career of Dr. Donald E. Cornforth, a radiologist and businessman serving the communities of Bakersfield and Delano in Kern County, California. One of the leading voices of our local medical community, Donald is retiring after committing nearly two decades of his life to bettering the quality of life for the people of Kern County.

Though he would leave his biggest mark on the City of Bakersfield, Donald was born and raised in Media, Pennsylvania. Upon graduating high school, he began his journey west, attending Colorado State University at Fort Collins and graduating with his Bachelor's degree in 1964. He furthered his medical education in California, studying four years at the Loma Linda University School of Medicine and graduating as a Doctor of Medicine in 1968. Around this time, the United States was embroiled in the Vietnam War, and for five years Donald served his nation in the United States Army, attaining the rank of Major before being honorably discharged in 1972.

In 1975, Donald was certified by the American Board of Radiology and began a lifelong career in medicine. Before moving to Bakersfield, Donald practiced radiology across Wisconsin and Colorado, and even taught at King Fahad Hospital in Riyadh, Saudi Arabia. During this period, he accumulated a reputation for his medical talent and technical acumen, performing Colorado's first percutaneous trans-renal kidney stone extraction in 1982, and the first percutaneous trans-renal UPJ endopyeloplasty in 1983—a world first.

For all his contributions to medicine, however, perhaps the biggest impact Donald made in his career came with his decision to move to Bakersfield in the early 1990's. Upon arriving in Bakersfield, he established himself as one of Kern County's premiere medical professionals, and since 1991, he has led a number of medical practices, most significantly Quest Imaging Medical Associates and Adventist Health Bakersfield. Through Quest Imaging, Donald brought cutting-edge technology to our community that was previously unavailable to Kern County residents, and the company remains a cornerstone of Bakersfield's medical community. Donald has been a fixture at San Joaquin Community Hospital, serving as the head of its Stroke Program and providing his talent as a radiologist for years. For over ten years, Donald has also given his time and talent to the community of Delano, frequently making the trek to Delano Regional

Medical Center to provide radiological services.

Donald retires leaving an indelible impression on the community he has called home for two decades. He will be remembered fondly in the Kern County community for his brilliant mind, his tireless work ethic, his philanthropy, and his pioneering, entrepreneurial spirit that pushed him from the suburbs of Philadelphia around the world and back again. I will miss discussing health policy with him, and I know many of his former patients will miss him for his kindness and attentive bedside manner.

As he begins this new chapter of his life, on behalf of our community, Judy and I wish him, his wife, Edna, and his two children all best.
